

WHY CHOOSE ACL?

ACL specializes in drug and alcohol toxicology and Pathology. We provide invaluable service to our clients from the start. When you choose ACL you access to a very flexible drug testing menu and a team of great pathologists. We offer great customer care, a variety of available reporting methods, competitive pricing (we charge modest amount for our services), and naturally state of the art equipment.

Our requisition forms are user friendly and very simple to interpret. We offer a unique requisition form for each specialty to make it as an appropriate tool for the physicians of many specialties. We offer multiple test panels or custom panels just to suit your practice needs. We can also tailor a custom panel specific to your practice to ensure you have the test panel that works best for you, your type of patients, and your practice. Through partnership with highly advanced laboratories (SHAMHSA and ISO/IEC Accredited), We deliver legally defensible results that can withstand any scrutiny. Our laboratory services include urine drug testing, oral fluid drug testing, and pathology services.

We have the support team that can train your staff to successfully implement monitoring procedures and services. Our sales team will work closely with you to help establish panels that best fits your practice needs. Our billing department is supervised to assure that our billing is processed with the utmost integrity. You have low cost drug and alcohol testing options. **Won't you give us a try?**
